

## FIELD SERVICE AUTOMATION SOFTWARE FOR FACILITIES, BUILDING & PROPERTY MANAGEMENT

Plan, Monitor and Manage your Day-to-Day Operations

Every day, facilities, building and property management professionals just like you wake up to a new list of site visits to conduct, maintenance work orders to schedule, assets or equipment to repair, and cost reports to review. Whether you manage a single site, multiple sites or highly complex sites, it can be challenging to stay organized. Do you have right field service software to accomplish everything with ease?

Field Squared provides all-in-one software to help you manage your day-to-day service operations as a facility, building or property management business. From scheduling the right technician via skills tagging to tracking assets in real-time, with Field Squared you can view, access and manage it all in a single pane of glass.

### Key Benefits

- Consolidated view across operations
- Schedule crews and assets to jobs
- Track and manage assets and inventory
- Reports to make informed decisions

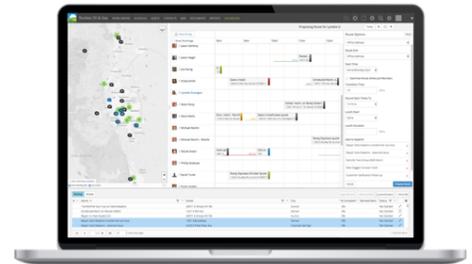

### Key Capabilities

- Scheduling
- Mobile Forms
- Work Order Management
- Online & Offline Availability
- Asset Management
- Reporting & Business Intelligence
- Mobile Application
- Integrations

### Schedule Staff, Contractors and Contingent Workers to Job Sites

Scheduling work is overly time-consuming without the right tools. Field Squared makes it easy to schedule any type of work at the click of a button.

- Be proactive about regular maintenance with recurring schedules
- Use route optimization to reduce drive time
- Match the right worker to the job with skill tagging

### Track and Manage Assets in Real-Time

- View the current and historical location of assets
- Generate work orders against assets at sites or the site itself
- Improve asset utilization across sites by analyzing asset metrics
- Scan barcodes for asset details

### A Solution for Every Building, Site, Property, or Facility You Maintain

Building Maintenance

POEs and Assessments

Janitorial Services

Grounds

Environmental Services

Parking Management

HVAC and Plumbing

Restoration/Remodeling

Elevator Maintenance

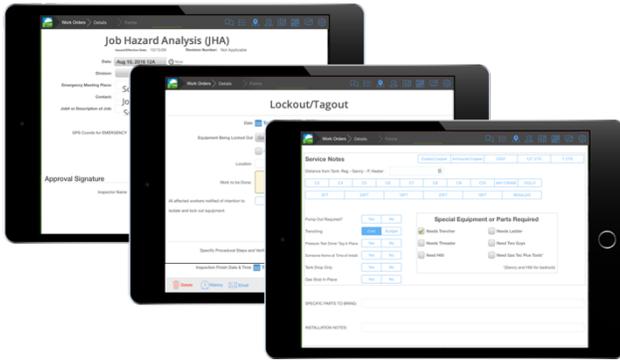

Contracting

Pest Control

Electric/Gas Utilities

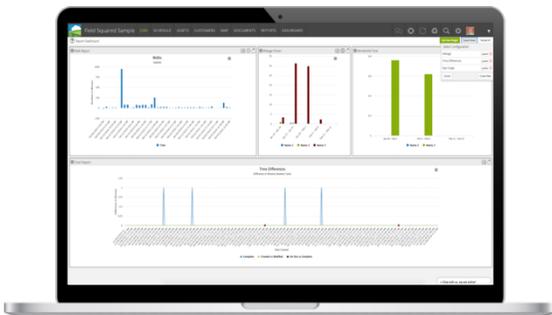

### Conduct Inspections, Assessments, POEs or Any Type of Work with Mobile Forms

- Create pre-task planning (PTP), post-occupancy evaluations (POEs) and job hazard analysis (JHA) forms
- Capture photos to document conditions
- Attach related documents, such as BIM, blueprints, lease contracts, assessments, and walk-throughs
- Leverage approval workflows to automate signature capture

### Leverage Inventory Planning and Parts Tracking Tools

- Track and trace the location of inventory in real-time
- Maintain inventory replenishment thresholds with automated alerts to re-order
- Enable technicians with mobile inventory management tools
- Accurately report cost of goods as well as invoice customers for parts used on work orders

### Optimize Operations, Assets and Capital

- Report on work hours to complete jobs
- Take control of overhead costs by analyzing inventory/supplies reports
- Track labor costs across permanent staff or contingent and contracted workers
- Understand time spent and costs incurred maintaining assets or equipment

### Integrate Third-Party Systems to Orchestrate Automatic Updates

Leverage your current investments in third-party systems by integrating them with Field Squared. With bi-directional automated updates orchestrated across your third-party systems, Field Squared enables you to see everything in a single pane of glass.

Thousands of people use Field Squared every day. Join the Crowd.
