

FIELD SERVICE AUTOMATION SOFTWARE FOR HEALTH CARE

Create HIPAA compliant mobile forms, schedule patient visits, and effortlessly manage territories

Keeping track of mobile home health care services nurses and technicians is not an easy task, especially with paper-based forms. If you're still using spreadsheets to schedule patient visits, forget about efficiency and accuracy. In the heavily-regulated industry of home health care, organizations must ensure HIPAA compliance in every aspect of their health services operations. With a highly distributed mobile home health care workforce, the challenge only increases. How can home health care service providers go digital, while maintaining HIPAA compliance?

As **the only HIPAA compliant field service software on the market**, the Field Squared Field Service Automation Platform helps home health care service providers remain HIPAA compliant while on the go. Field Squared provides operations managers a single pane of glass from which to schedule and dispatch nurses, coordinators and technicians; manage work orders; create digital HIPAA compliant mobile health care forms; enable real-time notifications; and track medical equipment assets/inventory. With Field Squared, you can focus on patient care while we take care of the rest.

Key Benefits

- HIPAA Compliant
- Granular Security and Role-Based Permissions
- Create HIPAA Compliant Mobile Forms
- Send Real-Time Status Alerts to Patients

Key Capabilities

- Scheduling & Dispatching
- Real-Time Tracking
- Mobile Forms
- Online & Offline Availability
- Asset & Inventory Management
- Reporting
- Mobile Application
- Integrates with EMRs

Schedule and Dispatch Optimized Daily and Recurring Care Routes

- Schedule and dispatch daily and recurring care routes for RNs, LPNs, CNAs and technicians
- Quickly route urgent calls from a patient and dispatch the nearest or next available nurse
- Create a care needed schedule with automated appointment notifications to patients and staff

Create HIPAA Compliant Digital Mobile Forms

- Replace paper forms with digital HIPAA compliant mobile forms (i.e., medical release, consent, aide plans, patient visits, directives)
- Collect secure health care data with signature capture
- Pre-fill forms with patient data to save time on data entry
- Email completed forms to patients, staff and doctors
- Automate insurance provider invoicing

Be Confident with Security and Granular Role-Based Permissions

- Ensure HIPAA compliance with all patient data and communications
- Granular security with role-based permission settings at both the user and team levels
- Military grade AES-256 encryption
- Clients and servers communicate with the same technology used by banks to secure your data

Keep Patients In-The-Know with Real-Time Status Notifications

- Notify customers in real-time via status updates, such as ETA, late arrival and rescheduling
- Reduce patient care knowledge gaps with previous message and conversation history
- Keep everyone on the same page with group messaging and collaboration

View and Track Staff, Assets and Jobs on a Map in real-time

- Know exactly where health staff is in real-time
- See patient locations and territories on a map
- Track time on site, unscheduled stops, speeding, and other key performance metrics
- Find the nearest health worker for urgent visits
- Audit visits through a historical replay

The Only HIPAA Compliant Field Service Software

At Field Squared, we take software security and the security of our customer's data seriously. That's why we went through the rigorous process of certifying Field Squared software to be HIPAA compliant. Field Squared is the only HIPAA compliant field service management software platform on the market.

Thousands of people use Field Squared every day. Don't wait, join the crowd.
